AMENDMENT AND RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313

Sir:

This is Applicants' response to the Office Action mailed August 30, 2006 requiring restriction between claims 1-17, 22-25 (Group I) and claims 18-21 (Group II), and also requiring an election of species. In response, Applicants elect with traverse to prosecute claims 1-17 and 22-25 (Group I) and also elect Species II. The Office Action states that claims 13-17 read on this elected species. Applicants note that the election of species becomes limiting only if there are no generic claims linking the different species. Applicants further note that claim 1 is generic to all of the species, and have amended the application to make the claims 13-17 and 22-25 dependent on claim 1 to emphasize this. This amendment also adopts a uniform nomenclature for naming and distinguishing first and second thermionic devices and first and second heat exchangers.

Please amend the above-identified application as follows:
